Take the cover off

Fig. 1

Fig. 2

### Step 2

Remove the battery blocker and check if the battery is placed correctly

Fig. 3

### Step 3

Close the cover

Fig. 4

## First launch

### Step 4

Open the FIBARO app and tap Add accessory icon

### Step 5

Application will guide you through the pairing process

Fig. 5

## First launch

### Step 6

Carefully remove one protective layer from the double-sided stickers included in the package. Apply the stickers to the sensor and magnet.

*\* you can also install device with screws  
(not included)*

Fig. 6

### Step 7

Peel off protective layer from the sensor and magnet

Fig. 7

### Step 8

Stick the sensor onto the frame and magnet onto the moving part of the door/window (no further than 5 mm from the sensor)

Fig.8

## Resetting the Door/Window Sensor to factory defaults:

1. Open the cover
2. Press the button 3 times then press and hold the button

Fig. 9

3. When the LED glows, release the button
4. Click the button again to confirm

┌

└

HomeKit Setup Code is needed to securely add accessory  
to your home. You may need it in case of re-pairing.  
Remember to keep it in safe place. Nobody but you has a copy.  
FIBARO cannot recover the HomeKit setup code for you.
